

CALIPER

Real People. Real Challenges. Real Solutions.

Caliper can help your company achieve its goals by aligning the talent and potential of your employees with the needs of your business. For nearly a half-century their expertise and accuracy, combined with the depth of their personalized approach, has enabled their consultants to provide the objective insights needed to help more than 25,000 companies succeed.

By helping you hire the right people, manage individuals more effectively and develop productive teams, Caliper can bridge the gap between where your company is and where you'd like it to be.

Caliper's approach begins with their objective, accurate personality assessment instruments, which provide data for measuring personality characteristics, individual motivations, likely behaviors and potential for success in a specific job. Their consultants use this information to provide customized solutions that continue to guide organizations to a higher level of performance.

- Caliper Profile** Personality assessment that helps you match the right person to the right job.
- Caliper Predictor** Best-in-class personality-based screener for entry-level and high-volume positions.
- Individual Developmental Guide** Developmental suggestions for new and existing employees.
- Caliper Three Sixty Plus** Combines an individual's self-image with feedback from peers, staff and supervisors as well as the Caliper Profile results.
- Team Building** An effective approach to building a stronger, more efficient team.
